

I just want to inform you of how much my family and I love K-Love radio station. We appreciate its music, prayers, messages, scriptures. Our whole family (my husband, myself and our 3 young children) listen to K-Love; how wonderful to not have to worry about the lyrics and messages our children hear. This is one of the only radio stations that poses positive, hopeful, and even convicting messages to the public. Without it, our ears would be filled with crud humor, sexual language, pessimism, and other negative, offensive words. Please keep our K-Love on the air. Society is full of enough negativity that is ripping our families apart and corroding our minds. We need K-Love. It keeps us living and thinking right, and brings us daily closer to the Lord. Don't take this away from today's society; we need it more than ever. Thank you for considering my family's opinions.

Sincerely,

Pamela Iken
